

Projects

Our current and past projects are the following.

-

[PV-Scan: Evaluation and Monitoring of PV Systems](#)

-

[Variability-Reducing Quality Control Methods in Photovoltaics](#)

-

[Statistical Visualization of Photovoltaic Quality Measurements](#)

-

[Methods and Algorithms for Statistical Quality Control of Photovoltaic Modules](#)

-

[Acceptance Sampling Plans for Evaluating the Performance of Solar Modules](#)

These projects are supported by

Bundesministerium
für Umwelt, Naturschutz
und Reaktorsicherheit

TÜVRheinland®
Genau. Richtig.
